

#	Description	Question	A	B	C
10 pts.	11 Concrete pedestal at entrance to swimming dock	What is the year completed at the bottom of the lower plaque?	1989	1993	1997
	12 Fenced equipment between stairs and corner of parking lot	What name is on it?	Kohler	Petra	Westinghouse
	13 Large maple tree next to fir tree in forest clearing	How many trunk branches are there at 6-foot height?	2	3	4
	14 W side of information board	What was made in the factory described here?	compasses	industrial saw blades	telephone switchboards
	15 Sculpture E of building corner	What shape is the concrete base?	cube	oval	triangle
	16 Monument in stand of trees	What year is inscribed in the concrete pedestal?	1926	1953	1985
	17 Bench at trail junction	What material is the bench seat?	metal	stone	wood
	18 Small brick plaza at path junction	What is here?	city map	fingerprint	geological timeline
	19 SE side of square planted area in small plaza	What year is on the plaque?	1925	1946	1968
	20 pts.	21 Bench along path	What word is on the plaque on the front of the backrest?	crowsnest	fishbowl
22 West side of small building		What is the first word on the upper sign on the door?	caution	hazard	no
23 SW side of junction along large trail		What is here?	metal slide	rock wall	treehouse
24 S side of mural column in entrance courtyard		What is depicted on the uppermost middle tile?	squirrel	sun	volcano
25 Trail junction SE of bridge		What is on the SW side of the junction?	bat house	bench with no back	rotten stump
26 W side of building		How many panes of glass does each of the large upper windows have?	3	8	24
27 Screen artwork between parking garage and building entrance		What black-on-white word is on the SW-most license plate in the bottom row?	applied	heckler	tending
28 Fountain S of lawn		How many diagonal fountain streams are here?	2	4	8
29 Small tree with plaque, N of wall and E of path		What is the first word on the plaque?	Henry's	Queen	Winter
30 pts.		31 Sculpture on boulder E of path	What does it resemble?	fish	sun
	32 Totem	What number is inscribed in the side of the left foot of the second lowest figure?	4	99	2006
	33 Middle signpost on W side of road junction	What is the name on the bottom placard?	Taugher	Thammavong	Torvalds
	34 Archway with bell over stairs (can view from outside fence)	How many stone columns are on either side of the stairs?	2	3	5
	35 Plaza between buildings	Seven of what are here?	basalt columns	marble balls	mushroom-shaped tables
	36 Line of sculptures on E side of path	How many sculptures are here?	40-50	80-100	200-300
	37 Large maple tree at trail bend, 15m SE of trail junction	How many ladder rungs are on one of the trunks?	3	4	5
	38 Pair of utility poles together in forest by NW edge of clearing	What is the lower yellow-on-black number (~7 feet up)?	166280	181474	193008
	41 Play area E of covered play court	What do the play equipment have?	letter wheels	lights	rooves
	40 pts.	42 S end of trail	How many planks make up the bench seat?	6	8
43 Plaque on SE side of bell pedestal		After whom is this bell named?	an Archbishop	a parishoner	a pastor
44 Fountain on plaza, E of building		On how many sides of the rock does the water flow down?	2	3	4
45 W edge of lawn area, W of water tank		What is here?	barbecue grill	dog waste bags	wooden railing
46 Sculpture on SW side of planted area		What does the figure have?	basket	rifle	wings
50 pts.		51 Plaque on W-facing brick wall, near breezeway	What year is in the paragraph on the plaque?	1869	1908
	52 Old building (view from road)	What does the sign in the window of the white door say?	Cougar parking only	Firestone	gone fishin
	53 "Treehouse" 6m south of building	How many steps are in the ladder from the deck level up to the Treehouse?	10	13	16
	54 Group of sculptures atop small hill	What year is inscribed on top of the longest sculpture?	1993	2002	2011
	55 Cabin, S-most window on E side	According to the informational poster, in what month was it moved to its current location?	June	July	August

What is Street Scramble? A number of checkpoint locations are circled on the course map. The descriptions above tell you what to look for at the exact center of each circle. On foot or bike, visit checkpoints in any order, and answer the question at each one. Circle your answer on the question sheet. Each checkpoint has a point value. Your goal is to accumulate as many points as you can during the time limit. Go solo or in a small team of people from your same household.

A purple triangle on the map marks the official start location, a crossing of paved paths east of the parking lot at Bellevue Downton Park. Start and stop your time at that location if you want to compete for an official result in the virtual race. Return to the start location before the time is up. There is a 10 point penalty for each minute (or fraction) you are late. If you'd like us to include your result in the official standings then send us your elapsed time, your team name, number of team members, your division (foot or bike), and a photo of your answer sheet. We'd also love to see your photos and stories from the course, and we welcome you to share them on our Facebook page or email them to us.

Results will be posted at StreetScramble.com and updated every few weeks, as answer sheets come in.

Important Rules

- * Comply with all laws and directives, including staying out of private areas and observing social distancing measures, including giving others 6-feet of
- * Teams that wish to be ranked officially may not split up to visit different checkpoints.
- * Don't shine lights into people's yards looking for checkpoint answers. This course is designed to be done during daylight hours.
- * Circle answers only for checkpoints you actually visit. Don't guess, don't ask others for answers, and don't use your phone to get answers. Wrong answers are penalized in order not to reward guessing. Even if you know the answer ahead of time, don't circle it unless you go there (if you're competing officially.)
- * Travel under your own power only, on your choice of foot or bike. Skateboards/skates/scooters = bike division. Wheelchairs and similar mobility aids = foot division.

The course map is reasonably accurate and up-to-date, however it is made from imperfect data and has not been checked or corrected in most places. We have made corrections only where it is quite important to this Street Scramble event. The map is generalized, so only select paths and buildings are shown. The map includes a legend of symbols.

Safety: You are participating at your own risk. We strongly encourage you to wear bright colors to enhance your visibility to others when you do the course. Be very careful crossing or riding in traffic! Be courteous to other pedestrians. Cyclists are required to obey traffic laws at all times.

STREET SCRAMBLE

Upcoming Street Scramble events (now tentative):
 Fremont Oktoberfest, Sep. 20
 At the Market, December 12
 Gig Harbor, TBD
 Visit StreetScramble.com for details.

Many thanks to those of you who have contributed to support our work during this difficult time.

Special notes on map and checkpoints

Checkpoint features are at exact centers of circles. There are 37 checkpoints, and the maximum possible score is 1000.

The map is printed with **true north at the top**, so the magnetic north arrow is slanted about 16 degrees clockwise.

A number sign (#) in the checkpoint description means an address number. Abbreviations: N means North, S means South, E means East, and W means West;
